FOREST NOTES

Angora goats have been used with profit to keep fire lines clear of inflammable vegetation on national forests in California.

Last year the fire loss on the Canadian timber reserves was the smallest ever known, only one-fiftieth of one per cent of the area being burned over.

Zentaro Kawase, professor of forestry at the imperial university of Tokyo, Japan, has been making a tour of the national forests of this country to learn the government's methods of selling timber and of reforestation.

More than \$58,000 young trees are being set out this spring on national forests in Utah and southern Idaho, and the season is reported as particularly favorable to their successful growth.

Armstrong lake, within the Bear-tooth national forest, Montana, is said to rival the famed Lake Louise of the Canadian Rockies. It lies at an elevation of 7,000 feet, surrounded by towering mountains. A good road which can be traveled in half a day by automobile connects it with the railroad at Billings. A rustic hotel has recently been completed, and many trails make the surrounding region accessible.

Ohio now has 5,525 saloons. In 1906 it had 13,000.

It is Just Natural To Admire Babies

Our altruistic nature impels love for the young infant. And at the same time the subject of motherhood is ever before us. To know what to do that will add to the physical comfort of expectant motherhood is a subject that has interested most women of all times. One of the real helpful things is an external abdominal application sold in most drug stores under the name of "Mother's Friend." We have known so many grandmothers, who in their younger days relied upon this remedy, and who recommended it to their own daughters that it certainly must be what its name indicates. They have used it for its direct influence upon the muscles, cords, ligaments and tendons as it aims to afford relief from the strain and pain so often unnecessarily severe during the period of expectancy.

Every woman should mention "Mother's Friend" when the stork is the subject of conversation. An interesting little book is mailed free upon application to Bradfield Regulator Co., 405 Lamar Bldg., Atlanta, Ga. It refers to many things that women like to read about. Get or recommend a bottle of "Mother's Friend" to-day and write for the book.
